IDENTIFIERS *New York

ABSTRACT

Since 1966 racial/ethnic data has been collected annually from all public elementary and secondary schools in New York State. Such data is presented in eight tables. Table 1 gives the 1973-74 racial/ethnic distribution of public school students for the State's major school districts (Buffalo, New York, Rochester, Syracuse, and Yonkers), for the rest of the State, and for the State as a whole. Table 2 details the 1973-74 distribution of black and Spanish-surnamed American students by location in the State. Table 3 gives a percent distribution of public school students by racial/ethnic origin for the years of 1969-70 through 1973-74. Table 4 gives the number of schools and the number and percent of minority students in schools of differing racial composition. Tables 5 and 6 present the number and percent of black and Spanish-surnamed students in schools of differing racial composition. Table 7 gives the distribution of public school professional staff by racial/ethnic origin. Table 8 gives a percent distribution of public school professional staff by racial/ethnic origin for the years 1969-70 through 1973-74. Appendixes A and B distribute public school students and professional staff by racial/ethnic origin for each school district in the State. (JC)

INTRODUCTION

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and is now a part of the Department's Basic Educational Data System.

Table 1 presents the 1973-74 racial/ethnic distribution of public school students for the State's "Big Five"* school districts (individually and combined), for the rest of the State and for the State as a whole. Examination of table 1 shows, in part, that (1) excluding the "Big Five" cities, 6.0 percent of the students enrolled in New York State's public elementary and secondary schools are classified in the two major minority groupings--black and Spanish-surnamed American; (2) within New York City, 63.7 percent of the students are of a major minority group, and 34.3 percent are classified as "Other", i.e., neither black, Spanish-surnamed American, American Indian, nor Oriental; (3) in four of the State's five largest cities, over 25 percent of the students are classified as black.

Table 2 details the 1973-74 distribution of black and Spanish-surnamed American students by location in the State. It can be seen that of all public school black students in the State, 71.9 percent attend schools in New York City, while an additional 9.8 percent attend schools in the other four major cities. Some 89.6 percent of the State's Spanish-surnamed American students attend schools in New York City.

Table 3 shows a percent distribution of public school students, by racial/ethnic origin, for the years 1969-70 through 1973-74. In the large cities of the State, the major minority group population of the public schools rose from 54.3 percent in 1969-70 to 60.5 percent in 1973-74. The increase was most pronounced in Rochester where black and Spanish-surnamed American representation in the public schools rose 11.9 percentage points over the 5-year period. The next largest increase was in Buffalo which showed a 6.7 percentage point rise.

Table 4 shows the number of schools and the number and percent of minority students (black and Spanish-surnamed American) in schools of differing racial composition, i.e., the percent of minority students in the school. Examination of table 4 shows, in part, that (1) there are 542 schools in New York with no black or Spanish-surnamed American students; (2) there are 53 schools in which all students are of a major minority group and that the enrollment in these schools accounts for 3.5 percent of the State's total black and Spanish-surnamed American enrollment; (3) three-quarters (75.0 percent) of the black and Spanish-surnamed American students in New York State's public schools attend a school that can be classified as a minority school, i.e., 50 percent or more of the students are black or Spanish-surnamed American.

Table 5 shows the number of schools and the number and percent of black students in schools of differing racial composition. Examination of table 5 shows, in part, that (1) there are 812 schools in New York with no black students;

* Buffalo, New York, Rochester, Syracuse, Yonkers

(2) there are 8 schools which are all black and that the enrollment in these schools accounts for 0.6 percent of the State's total black enrollment; (3) over half (50.7 percent) of the black students in New York State's public schools attend a school that is predominantly black, i.e., 50 percent or more of the students are black.

Table 6 presents data similar to that of table 5 for Spanish-surnamed American students. It may be seen that while there are no "all Spanish" schools in the State, 44.8 percent of the Spanish-surnamed American students attend schools with enrollments that are predominantly (50 percent or more) of the same ethnic group.

Table 7 shows the distribution of public school professional staff by racial/ethnic origin. Examination of this table in comparison with table 1 shows that, for the State as a whole, 26.1 percent of the students belong to one of the two major minority groups, while 5.9 percent of the staff fall in these two categories. Similarly, for the "Big Five" cities, 60.5 percent of the students are black or Spanish-surnamed American, while 12.3 percent of the staff are so identified.

Table 8 shows a percent distribution of public school professional staff, by racial/ethnic origin, for the years 1969-70 through 1973-74. The percent of minority group staff rose from 9.5 to 12.3 in the large cities of the State between 1969-70 and 1973-74. For the total State, minority groups increased from 5.5 percent of public school staff in 1969-70 to 5.9 percent in 1973-74.

Appendix A distributes public school students by racial/ethnic origin for each school district in the State. Appendix B distributes public school professional staff by racial/ethnic origin for each school district in the State.
